

Annex B

APEX APPROVED SUPPLIERS

With reference to the Contract Terms, the APEX Approved Suppliers are listed below and are subject to periodical revisions at the Clearing House's sole discretion.

According to the Contract Terms, the Selling Clearing Member shall ensure that the delivered product under APEX Crude Palm Oil Futures Contract must be supplied by APEX Approved Supplier(s) as listed below, and the Product is traceable to the mills. It is required that the Traceability Document (as appended) shall be properly and jointly endorsed by the Selling Clearing Member and the Seller, and provided to Clearing House in conjunction with the submission of Cargo Readiness before the commencement of loading.

In addition, as an effort of APEX to promote the sustainability of the production and use of palm oil, and in recognition to the credibility of the sustainability certification process through the RSPO Principles and Criteria Certification, the Clearing House has decided that all active RSPO Certified Growers/Processors will be automatically approved as Approved Suppliers for APEX Crude Palm Oil Futures Contract. Please refer to RSPO website for the latest list of active RSPO Certified Growers/Processors (<https://rspo.org/certification/search-for-certified-growers>) and the supplier shall be an active Certified Grower by the Last Delivery Day the Seller is obligated to supply the oil as per the Contract stipulates.

Any Supplier who is not an active RSPO Certified Grower may be required to apply for "APEX Approved Supplier" separately, and the approval to such application shall be at the sole discretion of APEX. Such Approved Suppliers are subjected to regular/ad-hoc reviews by the exchange.
